Immediately downstream from the proposed point of diversion.

Lower POU, with POD in lower right quadrant in trees at bottom of hill. Upper bench in distance contains level ground with annual grasses and coastal scrub suitable for farming that is presently not irrigated.

At the place(s) where the water is to be used.

Overview of POU towards East. Pond 1A in trees at lower left. Pond 1B above green pond. POU in fields in center and right of photo. No trees to be removed in open meadow settings.
